

## INDUSTRIAL SAFETY

---

ONE OF THE CORE PRINCIPALS OF MOST CERTIFICATION BODIES IS SAFETY. SAFETY OF EVERY INDIVIDUAL AND EQUIPMENT IS THE ONUS AND LIABILITY OF COMPANIES AND FACTORIES. PRODUCTION SITES CAN BE DEMANDING AND COMPLETE SAFETY SOLUTION IS A MUST-HAVE. WE SPECIALIZE IN PROVIDING CUSTOMIZED SAFETY SOLUTIONS SUCH AS EMERGENCY EYEWASH OR SHOWER WHICH ARE THE BASICS OF A GOOD MANUFACTURING FLOOR SET UP. OUR YEARS OF EXPERIENCE ALLOW US TO IMBIBE AND ADVISE THE PERFECT SOLUTION FOR YOUR FACTORY NEEDS.

# PRODUCT CATEGORY

# FIXED LIFELINE SYSTEM

## VERTICAL LADDER LIFELINE

Vertical Ladder Lifeline allow for hands-free movement up and down the entire height of fixed ladders, eliminating the need to disconnect and find new tie-off points during ladder ascent or descent. The system is designed, manufactured, installed and maintained as per EN and OSHA standards.

## LOADING BAY LIFELINE GANTRY

Gantry lifeline system is a horizontal lifeline fall protection system installed over loading unloading areas. can be truck or rail Gantry. System is designed, manufactured, installed and maintained as per EN and OSHA standards.

## ROOF TOP FIXED LIFELINE SYSTEM

Rooftop safety lifeline system is a horizontal lifeline system over all kinds of trapezoidal and standing seam roofs sheets. System is designed, manufactured, installed and maintained as per EN and OSHA standards. vsafety lifeline or rooftop lifeline is used for roof maintenance, solar power companies, EPC companies and many more.

# SAFETY CABINET

## FLAMMABLE CABINETS

For storing various flammable substances in your workstation, you can use our high-quality flammable cabinets. They are made with fire-proof material to ensure that no severe hazards damage the employees, resources and the environment in your workstation. They are available in a range of sizes, designs and types. You can find something that is appropriate according to your requirements.

## ACID CORROSIVE CABINETS

We have a range of cabinets for storing acids and other types of corrosive substances. They are made with corrosion-resistant materials. This ensures that the stored fluids don't damage the cabinets in any way. You can get smaller cabinets for storing lesser amounts of corrosive fluids in a reachable area. Or you can also go for larger cabinets to store larger amounts.

## TOXIC CABINETS

You can also find a range of toxic safety cabinets at Ensign Safety Solutions. These cabinets are made using a high-quality durable material which is not harmed even in the case of spilling of toxic fluids. The design is also made to be alerting, such that it makes people aware of the presence of something toxic inside.

# SPILL KITS

## CHEMICAL SPILL KITS

The Hazmat Spill kit and Absorbent in our product range are suitable for cleaning all types of aggressive fluids which can cause severe damage to people and the environment. Regardless of the chemical type, acidic, basic or unknown, these chemical absorbents work effectively. The product design is made especially using 100% Polypropylene to ensure optimal working. We have portable bag type, Drum type and trolley type spill kits ranging from 15 liters to 600 Liters Absorbing capacity.

## OIL SPILL KITS

For specific oil spills, we have designed the affordable range of Oil Absorbents. These pads and rolls can be useful for a variety of applications including industrial and environmental spills. The specialty of these oil absorbents is that they are designed to repel all kinds of water-based liquids. They absorb only oil-based fluids and are thus very effective in case of Offshore and Refinery use. We have portable bag type, drum type and trolley type spill kits ranging from 15 liters to 600 Liters absorbing capacity.

# SPILL KITS

## UNIVERSAL SPILL KIT

The Universal Absorbents have a smart design and are ideal for cleaning all types of spills. Especially in the case of oil or water based liquid spills, our universal absorbents can be very effective. They have a quick soaking capacity. They can absorb large liquid quantities in short spans. These absorbents can be used for all types of industrial applications where there are high chances of spilling and the type of spill maybe a mix of oil and water. We have portable bag type, Drum type and trolley type spill kits ranging from 15 liters to 600 Liters absorbing capacity.

## SPECIALITY SPILL KIT

If none of the available spill kits suits your requirements completely, we can also design a customised kit for you. These custom spill kits are made by our experts specialising in the area. After thoroughly examining your work unit and understanding your custom requirements, they design an optimal spill kit for you.

Some of our custom spill kits are :

- Blood Fluid Spill Kit
- Mercury Spill Kit
- Vehicle Spill Kits
- Acid and Alkali Spill Kits
- Antistatic oil spill kits

# SPILL CONTAINMENT

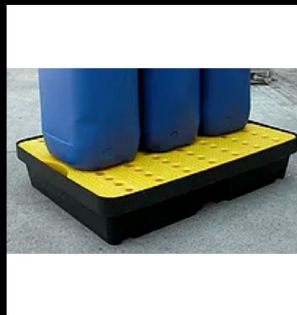

## SPILL PALLET

Spill Pallet is specially constructed to support heavy loads and designed to be easily used and transported. Its HDPE construction makes it compatible with a wide range of chemicals, while its low-rise walls allow easier accessibility for pouring. We have wide range of spill pallet in different sizes and different spill sump capacity.

## SPILL TRAYS

HDPE construction provides excellent compatibility for most chemicals and the optional grating will raise containers out of any potential spills. Available in 20, 30, 60 and 100 litres capacity.

## DRAIN PROTECTION

One of the simplest and the most efficient drain protection tools are drain covers. These covers are made of polyurethane materials and can work against chemicals, oils, fuel, etc. based on their design type. By simply covering the drainage system with these covers, various contaminants can be prevented from entering it.

## FORM WALL SPILL BERMS

Foam Wall Spill Berms also popularly known as duck ponds are manufactured to handle small leaks, drips and spills. They are very easy to store and small in size. Compared to their size, they have a fairly large capacity of containing up to 250 Litres.

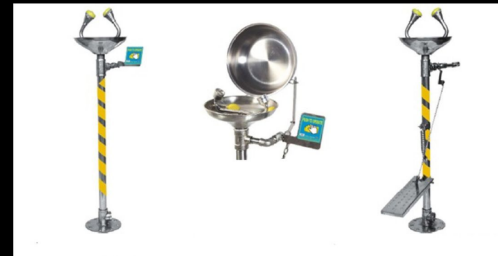

# EYE WASH AND SHOWER

## WALL MOUNTED EYE WASH UNIT

SS and GI Wall mounted eyewash units feature two spray heads that easily delivers a flood of water for rinsing eyes.

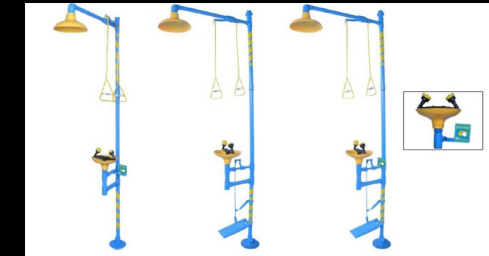

## FLOOR MOUNTED EYEWASH STATION

SS and GI Wall mounted eyewash units feature two spray heads. Foot pedal and push lever options are available.

## COMBINATION TYPE EYEWASH & SHOWER

## CHLORINE EMERGENCY KIT

- Leak through valve seat.
- Leak due to breakage of valve.
- Leak due to container wall puncture (Surface Leak).

As an option the kit is provided with tools to suit "Leak Through Fusible Plug". Indian containers are not generally provided with fusible plug.
